Gian Bravo - DJ Technical Rider

Note: Please confirm the DJ setup with me before the event. I'm happy to work with a suitable house setup or bring my own controller and cables, depending on the venue.

DJ Setup

• If using house equipment, please share the available DJ gear and mixer setup in advance.
• If I'm bringing my controller, please provide a stable table or booth with enough space, nearby power, and a connection to the house PA.
• Please confirm who is supplying the DJ equipment, PA, and any required cables before the event.

Sound

• The PA should be set up and working before my set begins.
• Booth monitors are appreciated where available.
• Please check with me before changing the agreed setup.

Event Details

• Please confirm set time, performance length, load-in, and soundcheck arrangements in advance.
• If parking or a specific load-in entrance is available, please share those details ahead of time.
• Water during the set is appreciated.

If any part of the setup isn't available, let me know ahead of time so we can work out an alternative. For booking and technical questions, please email management: gianbravomgmt@gmail.com
